

# Clear View

Clear View Balustrades was established in 2006 to address the growing demand for the more specialist balustrading requirements of today's architects, designers and the homeowner.

From pool surrounds, wooden decks and balconies we aim to satisfy the more demanding and design conscious individual.

If you can visualise it we can create it!

# CLIFTON

Our "Clifton" style balustrade, superbly suits both the local and international market, with durable finishes such as stainless steel and glass panels.

The components which combine to make up the Clifton balustrade, range from the unique swivel connector to the durable glass brackets. Finished in stainless steel.

As Pool enclosure - Functional transparent balustrading with finishes in brushed stainless steel, together with a 8mm bright polished all round Armourplate® glass, make this combination a rust-free investment. It is the ideal pool enclosure or balustrading for the family with small children.

# LLANDUDNO

The Llandudno is a frameless 12mm Armourplate® glass balustrade, freestanding providing clear and unobstructed views.

# KLOOF

The very popular "Kloof" balustrade is a combination of nautical stainless steel cable and cable components.

A stainless steel hand rail secures and compliments the balustrade. Timber handrails are available on request.

**The Personal Option**  
Choose from existing styles **OR** call Ronnie for a no obligation chat to explore the possibilities of having a custom design for your precise and exacting requirements. Personal supervision of design, manufacture and installation at all stages.
